

Reviewing Submission History and Feedback

Viewing Your Submissions

Once you submit your assignment in the Assignments folder, it appears in the **Submissions** section and you will receive an e-mail confirmation. Alternatively, if you miss the cutoff date for an assignment, the assignment is moved to the **Submissions** section. From this section, you can review your submission, but you cannot make any changes to your work.

Once your instructor grades your submission, it appears in the **Feedback** section, although your instructor may not release your grade immediately. If you want to view any comments and feedback that your instructor has provided, open your submission.
